To Whom it May Concern,

I have known Graham Healy for over 10 years

He has sought my advice on nutrition and health issues and we have had many fruitful discussions. I had sent him a lot of information over these years which he has absorbed and integrated. He has an inquisitive and incisive mind which analyses issues and seeks the truth

Graham has been a successful trainer both in physical and martial arts context and has run a variety of successful businesses in the health and fitness area

He has gone out of his may to assist many people who have had illnesses and health issues. This has shown his genuine caring for others

Graham is a man of great integrity, passion and leadership skill. I am sure that everyone who has either sought his nutritional advice or been trained by him will have gone away valuing and remembering that experience

Graham is a very practical man who always takes away and applies everything he learns. So I sure he will not waste the knowledge you give to him, but will use it to benefit those he instructs

If you need any further information please do not hesitate to contact me

Regards Rodney Campbell

Naturopath and Technical Researcher with Nestle Nutrition
